## CASE STUDY

Pre-recording sections of the live webinars ensures a better experience for volunteer presenters, and a more comprehensive Q&A session, a key reason members participate in live events. Blue Sky's feature rich platform allows NAFSA to integrate chats, polling and video. Surveys at the close of a webinar help NAFSA to better serve its members by providing insights on what content members find the most value in.

Archived webinar recordings give members on-demand access at a lower price. Plus, NAFSA is able to bundle several on demand events with similar themes to provide even more value. Members can explore by community to quickly find content they want. Blue Sky's responsive platform allows viewers to participate from any device, which has helped to increase member engagement.

Most importantly, Blue Sky delivers the high level of customer service expected by NAFSA's members.

**I came in with very high expectations and the Blue Sky team has met all of them. They are friendly, patient, easy to work with and very accommodating. We've had speakers that have needed more support during their rehearsals and the Blue Sky staff is always professional and easy to deal with. For associations who are looking for a platform that can handle a large volume of content and provides a top quality user experience, this is the platform.**
